2

Partnership Target and Deliverable

Target E

45 counties/territories to align their strategic / operational plans with the GMAP by the end of 2011

Deliverable 10

10.8 Re-define case management indicators and support development of tools to measure them (in collaboration with MERG) in response to weaknesses in current indicators in different environments

Fourth CMWG meeting, 6th – 7th July 2010

3

Activities

- 1. Development of a concept note on need to develop a matrix of indicators for case management**
- 2. Consultative meeting on development of case management indicators**
3. Development of a document on re-defined matrix of case management indicators incorporating recommendations from the meetings
4. Dissemination of re-defined matrix of case management indicators

Activity 8.1 Development of a concept note on need to develop a matrix of indicators for case management

1. Literature review conducted of present indicators for case management
2. To use the information from the literature review and work together with MERG to develop a collaborative concept note

-In June had a teleconference to start dialogue with key members:

- Fred Arnonld, Holly Newby, Richard Cibulskis (MERG)
- Aziza Mwisongo, David Schellenberg (CMWG).

-Richard Cibulskis will talk about what MERG has already done regarding CM indicators

-David Schellenberg will supervise development of a concept note by end August

-Finalise concept note in consultation with MERG-early September
