

# Partnering in the fight to end malaria: what's new on PMI's agenda

**Dr. Richard Steketee**  
Deputy U.S. Global Malaria Coordinator

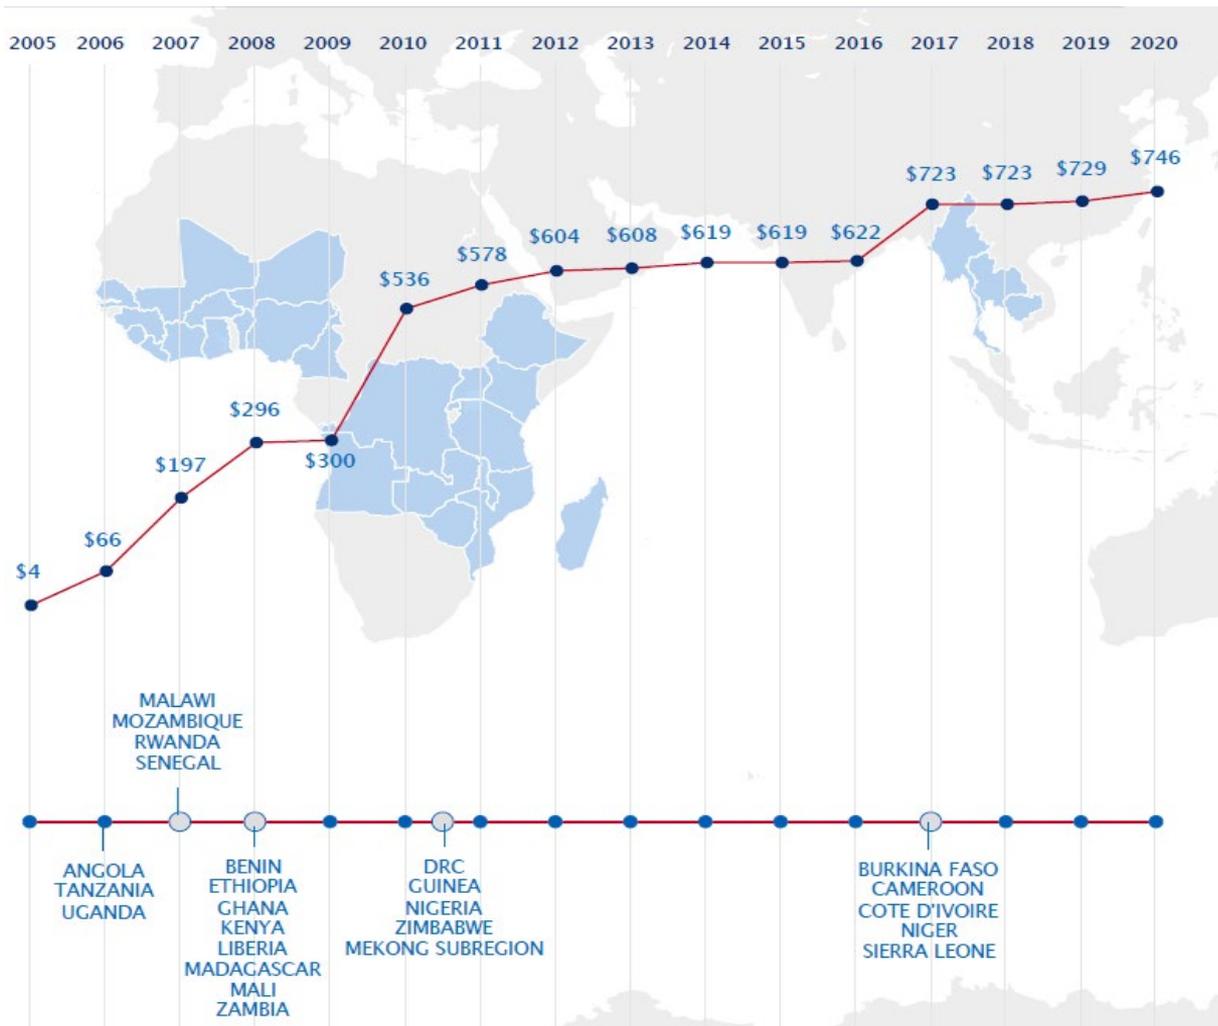

**PMI** | U.S. PRESIDENT'S  
MALARIA INITIATIVE

LED BY

**USAID**  
FROM THE AMERICAN PEOPLE

29%↓  
CASE RATES

60%↓  
DEATH RATES

SINCE 2006

# PROVEN INTERVENTIONS

Insecticide-Treated Nets

Indoor Residual Spraying

Case Management  
(Diagnosis and Treatment)

Intermittent Preventive Treatment for Pregnant Women

Seasonal Malaria Chemoprevention

## Cross-Cutting Investments

Supply Chain and Health Systems Strengthening

Social and Behavior Change

Surveillance, Monitoring and Evaluation

Operational Research

**+200**  
mosquito  
surveillance  
sites

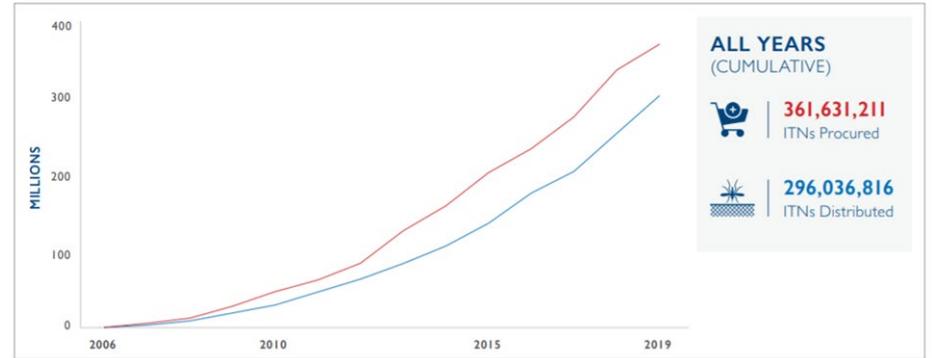

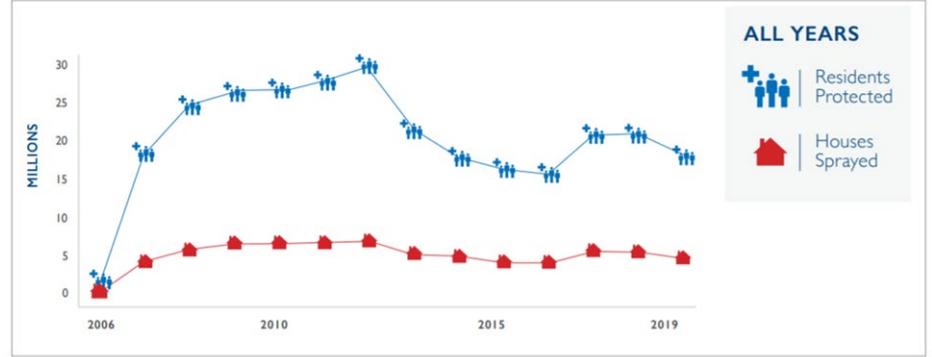

Insecticide  
to spray  
**+79m**  
homes (IRS)

**+375m**  
mosquito  
nets (ITNs)

# Improve ACCESS TO TIMELY, QUALITY DATA for vector control decision making

### ITN Type & IRS by District

- Dual Insecticide ITN
- PBO
- Standard
- Standard + IRS
- Entomologic monitoring site with confirmed pyrethroid resistance

BURKINA FASO

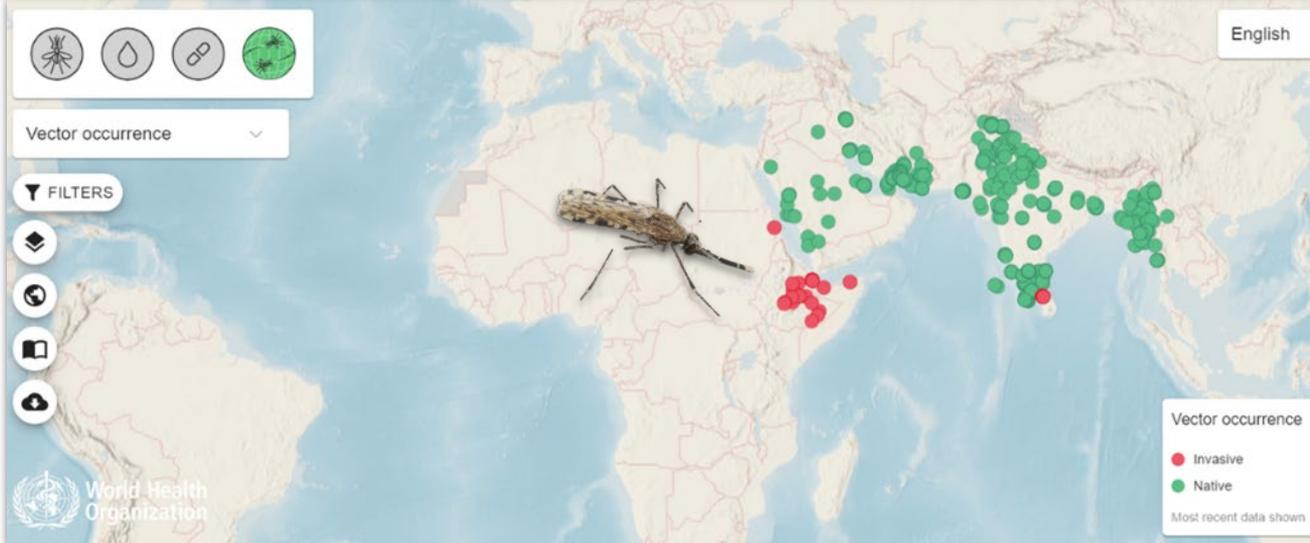

Aspire to  
**UNIVERSAL VECTOR  
CONTROL COVERAGE**  
using optimal insecticides  
based on local data

Then  
**REACH THE  
UNREACHED**

Support  
**INNOVATION**  
for existing and new vector control tools

# Maintain malaria gains with SUSTAINED VECTOR MONITORING AND CONTROL in the face of new and emerging threats

# Support local **MALARIA FIGHTERS**

THANK YOU
